Coyote One along with our USA equity partner, SPEA, is pleased to announce our recent award for the 2nd time, from PSN Investment Solutions as “Manager of the Decade” 2021 for Coyote One, SPEA Small Cap Diversified Strategies.

Portfolio Manager, Kevin Silverman shared with the media: *“We are honored to earn this coveted designation for the second time, especially during a period of unprecedented market turbulence. We are particularly happy with our risk metrics, which are noteworthy for their consistency while also beating our benchmark. These results have only been possible because of our excellent fundamental research effort, and so I applaud a decade of great work by our investment team!”*
